WRITING YOUR TRANSFORMATIONAL BOOK JUST GOT EASIER

Congratulations on downloading this Transformation Quadrant Workbook!

This simple yet powerful tool is guaranteed to help you gain clarity on the four most important things to consider when writing your book. Plus, this tool will help you build a solid foundation for your book's success... and help you "blueprint" your book in as little as fifteen minutes.

If you've downloaded this workbook, it's most likely because you're reading my book *The Transformation Quadrant*, so for now, just continue reading that book.

Then, when I instruct you to create your own Quadrant, print out this workbook and use the following page to start creating the Transformation Quadrant for your book! On page four you'll also see a notes page to jot down additional thoughts and ideas.

If you have any questions, we're here to help.
Just email support@christinekloser.com or call (800) 930-3713.
